

VISION

“A premiere autonomous resource and research center for teachers’ professional development to facilitate quality learning in education”.

OBJECTIVES

1. To provide inputs to instructors and teachers as a resource center.
2. To provide service through proper supervision and guidance.
3. To extend advanced technical support and enable E-content creation, and provide scope to online teaching learning process.
4. To evolve teaching-learning material and evaluation tools to stake holders.
5. To coordinate and implement government educational policies at district level.
